

CASE SCREENING CHECKLIST FOR CANDIDATES

CANDIDATE ID _____

Case Criteria	Y/N	Comments
Severe		
Generalized		
Both arches		
Two molars pre-treatment		
Two molars post-treatment		
Complex enough?		
Sextent of surgery		
Minimum 4 week post-op		
No identifiers		
SUBMITTED DATA		
Printed version of case presentation?		
RADIOGRAPHS		
<i>Overall quality</i>		
Complete periapical views		
Panoramic view		
Bitewings - occlusion		
<i>Consistent with Written Report</i>		
<i>Consistent with charts</i>		
PRETREATMENT PHOTOS		
<i>Overall quality, focus, lighting</i>		
<i>Consistent with radiographs</i>		
<i>Consistent with charts</i>		
<i>Appropriate use of mirrors</i>		
No identifiers		
Facial x 3: (R post, Ant, L post)		
Max pal views; all ant's and post's		
Mand Li views: all ant's and post's		
Tissues dried/clean		
Transparencies: labeled, dated, in pages		
Digital: labeled, dated, high resolution, no more than 2 photos per page		
Occlusion demonstrated		
POST-INITIAL THERAPY PHOTOS		
<i>Overall quality, focus, lighting</i>		
<i>Consistent with radiographs</i>		
<i>Consistent with charts</i>		
<i>Appropriate use of mirrors</i>		
No identifiers		
Facial x 3: (R post, Ant, L post)		
Max pal views; all ant's and post's		
Mand Li views: all ant's and post's		
Tissues dried/clean		
Transparencies: labeled, dated, in pages		
Digital: labeled, dated, high resolution, no more than 2 photos per page		
SURGICAL PHOTOS		
<i>Overall quality, focus, lighting</i>		

<i>Consistent with Written Report</i>		
<i>Consistent with radiographs</i>		
<i>Appropriate use of mirrors</i>		
Buccal and lingual views		
Tissues dried/clean		
Incisions, flap design		
Surgical debridement before regen/osseous		
After regen/osseous		
Sutures		
Transparencies: labeled, dated, in pages		
Digital: labeled, dated, high resolution, no more than 2 photos per page		
POST-TREATMENT PHOTOS		
<i>Overall quality, focus, lighting</i>		
<i>Consistent with radiographs</i>		
<i>Consistent with charts</i>		
<i>Appropriate use of mirrors</i>		
No identifiers		
Facial x 3: (R post, Ant, L post)		
Max pal views; all ant's and post's		
Mand Li views: all ant's and post's		
Tissues dried/clean		
Transparencies: labeled, dated, in pages		
Digital: labeled, dated, high resolution, no more than 2 photos per page		
WRITTEN CASE REPORTS		
<i>Overall quality</i>		
<i>Consistent with radiographs</i>		
<i>Consistent with photographs</i>		
<i>Accuracy, clarity, spelling, typos, succinctness, grammar</i>		
Medical Hx		
OH/Compliance		
Clinical parameters (PPD, BOP, Pur, mobility, FI's, AL's, MG)		
Radiographic interpretation correct		
Diagnosis - all pathology, correct		
Etiology		
Tx Plan / Therapy		
Objectives/Goals		
Prognosis		
Evaluation - identify/explain any discrepancies in chart		
Maintenance		
PERIODONTAL CHARTS		
<i>Consistent with radiographs</i>		
<i>Consistent with photographs</i>		
<i>Accuracy, neatness</i>		
PPD's, recession, treatment		
Attachment level changes sensible		
Mobility, Furcation Involvement
